

Section 1—Identification: Product identifier and chemical identity

Product identifier

Product name: **Foaming Hand Wash**

Other means of identification

Product Code: **3092001**

Recommended use of the chemical and restrictions on use

Recommended use: Workplace Hand Wash.

Restrictions on use: None identified.

Details of manufacturer or importer

Company: **Soft Clean**
1 Arthur Dixon Court
YATALA QLD 4207
Telephone: 1 800 473 927
Email: customerservice@rewardH.com.au
www.rewardhospitality.com.au

Emergency phone number

24-hour contact: **Poisons Information Centre**

Section 2—Hazard(s) identification

Classification of the hazardous chemical

GHS Classification: Skin irritation – category 2
Eye irritation – category 2

Label elements, including precautionary statements

Hazard pictogram(s):

Signal word: **WARNING**

Hazard statement(s): H315 (Causes skin irritation)
H319 (Causes serious eye irritation)

Precautionary statement(s): **Prevention:**
P264 Wash thoroughly after handling.
P280 Wear protective gloves/eye protection/face protection.

Response:
P302 + P352 IF ON SKIN: Wash with plenty of soap and water.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P332 + P313 If skin irritation occurs: Get medical advice/attention.
P337+P313 If eye irritation persists: Get medical advice/attention.
P362 Take off contaminated clothing and wash before reuse.

Section 3—Composition and information on ingredients

Mixture

Name	CAS	Concentration % W/W
Sodium Lauryl Ether Sulphate	68585-34-2	< 10%
Cocoamide DEA	8051-30-7	< 10%

Other

Other ingredients which do not contribute to the classification of the hazardous chemical.

Section 4—First aid measures

Description of necessary first aid measures

If inhaled: Move victim to fresh air if safe to do so. If not breathing, apply artificial respiration and call emergency medical services. Seek medical advice.

In case of skin contact: Remove all contaminated clothing. Rinse skin with water. Use soap and plenty of water. Seek medical advice.

In case of eye contact: Use eyewash first aid facilities. Rinse with plenty of water for at least 15 minutes. Seek medical advice.

If ingested: Do NOT induce vomiting. Rinse mouth with water. Seek medical advice.

Symptoms caused by exposure

Causes serious eye irritation and skin irritation. Effects of exposure (inhalation, ingestion or skin contact) to substance may be delayed.

Medical attention and special treatment

Treat symptomatically.

Section 5—Firefighting measures

Suitable extinguishing equipment

Small Fire: Dry chemical, CO₂ or water spray.

Large Fire: Dry chemical, CO₂, alcohol-resistant foam or water spray. Move containers from fire area if you can do it without risk.

Specific hazards arising from the chemical

Contact with molten substance may cause severe burns to skin and eyes. Avoid any skin contact. Effects of contact or inhalation may be delayed. Fire may produce irritating, corrosive and/or toxic gases. Runoff from fire control or dilution water may be corrosive and/or toxic and cause pollution.

Special protective equipment and precautions for firefighters

Wear positive pressure self-contained breathing apparatus (SCBA). Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Effects of contact or inhalation may be delayed.

Section 6—Accidental release measures

Personal precautions, protective equipment and emergency procedures

Wear protective clothing and respiratory protection. Avoid breathing vapours, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas.

Environmental precautions

Do not let product enter drains. See Section 12.

Methods and materials for containment and cleaning up

Soak up with inert absorbent material and dispose of as hazardous waste. Avoid generating dust. Keep in suitable, closed containers for disposal.

Section 7—Handling and storage, including how the chemical may be safely used

Precautions for safe handling

Eating, drinking and smoking in work areas is prohibited. Wash hands after use. Remove contaminated clothing and protective equipment before entering eating areas.

Conditions for safe storage, including any incompatibilities

Safe storage: Keep container tightly closed in a dry and well-ventilated place.
Incompatibilities: Strong acids and bases. Strong oxidising agents.

Section 8—Exposure controls and personal protection

Exposure control measures

Mixture. No known Australian exposure standards or national occupational exposure limits set for relevant ingredients.

Biological monitoring

Data not available.

Control banding

Data not available.

Engineering controls

Use only in a well-ventilated area. Provide appropriate exhaust ventilation at places where natural ventilation is not sufficient.

Individual protection measures, for example personal protective equipment (PPE)

Eye/face protection: Safety glasses. Use equipment for eye protection tested and approved under appropriate government standards.

Skin protection: Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use. Wash and dry hands.

Body protection: Complete suit protecting against chemicals. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory protection: Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type or respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards.

Section 9—Physical and chemical properties

Appearance:	Red Liquid
Auto-ignition temperature:	Data not available.
Decomposition temperature:	Data not available.
Evaporation rate:	Data not available.
Flammability (solid, gas):	Data not available.
Flash point:	> 60°C (calculated).
Initial boiling point and boiling range:	Data not available.
Melting point/freezing point:	Data not available.
Odour:	Lemon and lime fragrance.
Odour threshold:	Data not available.
Partition coefficient: n-octanol/water:	Data not available.
pH:	7.0 – 8.0
Relative density:	1.00
Solubility:	Complete (in water).
Upper/lower flammability or explosive limits:	Data not available.
Vapour density:	Data not available.
Vapour pressure:	Data not available.
Viscosity:	Data not available.

Section 10—Stability and reactivity

Reactivity

Data not available. Unlikely to react under conditions of intended use.

Chemical stability

Stable under recommended storage conditions.

Possibility of hazardous reactions

Acids reacts exothermically with bases and can initiate the polymerization of certain classes of organic compounds. May react with metals to liberate flammable hydrogen gas.

Conditions to avoid

Avoid contact with foodstuffs. Avoid exposure to heat. Avoid exposure to direct sunlight.

Incompatible materials

Strong bases and oxidizing agents. Cellulose-Based Absorbents.

Hazardous decomposition products

Hazardous decomposition products formed under fire conditions. May include toxic and irritating oxides of carbon.

Section 11—Toxicological information

Acute toxicity:	Data not available.
Skin corrosion/irritation:	H315 (Causes skin irritation).
Serious eye damage/irritation:	H319 (Causes serious eye irritation).
Respiratory or skin sensitisation:	Data not available.
Germ cell mutagenicity:	Data not available.
Carcinogenicity:	Data not available.
Reproductive toxicity:	Data not available.
Specific Target Organ Toxicity (STOT)—single exposure:	Data not available.
Specific Target Organ Toxicity (STOT)—repeated exposure:	Data not available.
Aspiration hazard:	Data not available.

Section 12—Ecological information

Ecotoxicity:	Data not available. Avoid contaminating waterways.
Persistence and degradability:	Data not available. Expected to be biodegradable in water.
Bioaccumulative potential:	Data not available. Not expected to be bioaccumulate.
Mobility in soil:	Data not available.
Other adverse effects:	Data not available.

Section 13—Disposal considerations

Disposal methods

Refer to local government authority for disposal recommendations. Dispose of contents/container in accordance with local/regional/national/international regulations.

Section 14—Transport information

UN number:	Not regulated.
Proper shipping name or technical name:	Not regulated.
Transport hazard class:	Not regulated.
Packing group number:	Not regulated.
Environmental hazards for transport purposes:	Not classified as a Marine Pollutant under IMDG Code.
Special precautions for user:	Data not available.
Additional information:	Data not available.
Hazchem or emergency action code:	Not regulated.

Section 15—Regulatory information

Standard for the Uniform Scheduling of Medicines and Poisons

Ingredients not listed.

Carcinogen classification under WHS Regulation 2011, Schedule 10

Ingredients not listed.

National Inventories

AICS: On the inventory, or in compliance with the inventory

Section 16—Any other relevant information.

This SDS summarises to our best knowledge at the time of issue, the chemical health and safety hazards of the material. It is believed to be correct but does not represent any guarantee of the properties of the material and shall be used only as a guide. We cannot anticipate or control the conditions under which the product may be used, and each user must assess and control the risks arising from the use of the material.
